

DTC COMPANY PROFILE

Danial Safdari Trading Ltd.

Import & Export • Project Equipment Supply • Logistics & Procurement • Solar & Infrastructure

ABOUT DTC

Danial Safdari Trading Ltd. was established and registered in 2019 as a private company in Afghanistan. The company holds TIN No. 9010442375 and License No. 67168 and operates in accordance with the laws of Afghanistan. DTC works across import and export, project equipment supply, logistics and procurement, energy and solar systems, infrastructure projects, and domestic investment. The company is led by Mr. Shabir Ahmad Safdari and operates as an independent, non-political entity focused on reliable commercial and project-related services.

CORE SERVICES

- Import & export of commercial and technical goods
- Project equipment supply and procurement
- Logistics and technical coordination
- Solar energy systems and electrical equipment
- Infrastructure project participation and management
- Contract management and project coordination

VISION & FUTURE

DTC focuses on quality services, modern technologies, and the expansion of solar and renewable energy capacity. The company plans to develop standardized solar solutions for residential, urban, agricultural cold-storage, processing, and production facilities across Afghanistan, supporting sustainable energy and domestic economic growth.

SELECTED PROJECT EXPERIENCE

1 MW Solar Energy Project – FMIC, Kabul

Commercial partner and supplier of solar and electrical equipment. DTC imported required technical equipment from China, including solar panels, hybrid transformers, solar-system equipment, and related logistics accessories. The project was awarded to Harirud Construction Company on 13 November 2024.

Kabul Urban Taxi Repainting Project

DTC participated as a financial investor and funder and supported execution, import of special taxi paint, procurement of accessories and consumables, production of specification plates/signs, and technical and operational support. The project scope covers approximately 96,000 taxis over three years.

Taxi Signage Production & Supply

Through the affiliated Misaq Wahdat production company, 50,000 taxi roof signs were produced and delivered over 2.5 years according to required technical standards.

Leadership: Shabir Ahmad Safdari — Chairman of the Board & President. Electrical and Electronics Engineering graduate of Kabul University, with technical, executive, project-management, trade, and renewable-energy experience.

Quality & Safety: DTC is committed to customer requirements, applicable laws and technical standards, reliable materials and suppliers, quality control, continuous improvement, timely and professional delivery, and a safe working environment.
